

Please vote NO -- do not allow further loosening of so-called "ownership" rules. The spectrum belongs to the People of this country, not big business. So-called "free tv" will NOT go away, that is a big lie being perpetrated by special interests. MORE voices need to be heard, MORE diversity of ownership is HEALTHY for DEMOCRACY! Further consolidation of TV/Radio ownership will stifle opinion and diversity. Instead, the FCC should REVERSE rulings that ruined Radio by allowing big companies to own multiple stations in single markets, squeezing individual operators and competition out. VOTE "NO" to liberalized ownership rule changes and monopolies... "YES" to diversity of voice, public access, and broadcast ownership spread out among the masses. AMERICA NEEDS BROAD REPRESENTATION OF BROADCAST OWNERSHIP TO REMAIN A HEALTHY, BALANCED SOCIETY!
